Sounds of Nature Deployment Checklist ☑

- ☐ Record field deployment details on datasheet

- ☐ Set AudioMoth to *Default* and verbally record field notes into AudioMoth

- ☐ Set AudioMoth to *Custom* for biodiversity monitoring

- ☐ Check lights on AudioMoth in *Custom* mode

  - Good: Only green light flashing
  - Bad: Solid red light with flashing green light
    - Must use AudioMoth Chime App to reprogram (see deployment guide)

- ☐ Seal AudioMoth inside plastic bag with desiccant, place inside camouflage pouch, and hang 4-5 feet above ground with zip ties

- ☐ Retrieve five days after deployment, turn off AudioMoth, and update datasheet.
